Andrea Ruglioni.

PhD candidate in Quantitative Finance, EPFL

andrea.ruglioni@epfl.ch ruglio.github.io/WEB_andrearuglioni github.com/Ruglio linkedin.com/in/andrea-ruglioni

01 Education

2024 – Present **PhD in Quantitative Finance**
EPFL, Lausanne · Supervisor: Prof. Damir Filipovic

2022 – 2024 **MSc in Mathematical Engineering** · 110/110 cum laude
Politecnico di Torino · Alta Scuola Politecnica honours programme (top 1%)
Thesis: co-design optimization via deep kernel learning

2023 – 2024 **Erasmus+ Exchange Program**
KTH Royal Institute of Technology, Stockholm

2019 – 2022 **BSc in Mathematics for Engineering** · 110/110 cum laude
Politecnico di Torino · Thesis: Markov chain Monte Carlo, from theory to simulation

02 Research

2026 **PanelGP: A Probabilistic Factor Model for Asset-Return Panels**
with Damir Filipovic · Working paper, arXiv:2611.04040 · code
Predicts the whole cross-sectional distribution of returns, not just its mean.

2026 **Flagging Low Incoming Liquidity, and Explaining Why**
with Aurel Ruben Mäder and Damir Filipovic · Working paper, with the Swiss National Bank
Flags unusually low incoming payments and attributes the shortfall to counterparties.

03 Experience

2026 – Present **External Research Collaborator, Banking Operations Analysis**
Swiss National Bank

2023 – 2024 **Control Engineer**
RoboTo, Politecnico di Torino student team · Real-time control for autonomous robots

2022 **Data Analyst Intern**
Orbyta · Analytics pipelines and predictive models with Python, SQL and Spark

04 Teaching

2024 – Present **Teaching Assistant, EPFL**
Probability and Stochastic Calculus
Quantitative Financial Risk Management
Investments
Introduction to Data-Driven Business Analytics

Fall 2023 **Teaching Assistant, KTH Royal Institute of Technology**
Applied Systems Engineering

05 Conferences, workshops & schools

Sep 2026 **Conference in Honour of Freddy Delbaen's 80th Birthday, Zurich** · Presenter
Jul 2026 **Swissquote Workshop on Graph Learning in Financial Networks, EPFL** · Co-organizer
Jul 2026 **13th Bachelier World Congress, Bologna** · Presenter
Jan 2026 **Advances in Financial Mathematics, Paris**
Sep 2025 **Summer School on Mathematical Aspects of Data Science, EPFL**
Jan 2024 **Winter School on Optimization and Operations Research, Zinal**

06 Skills

Methods Gaussian processes, Bayesian inference, deep learning, graph neural networks, time series
Programming Python (PyTorch, GPyTorch), Julia, R, MATLAB, C++, SQL
Tools Git, LaTeX, Quarto, Spark
Languages Italian (native), English (C2), French (B1)
